

## Tula Mini User Manual

1. Make sure you are familiar with how the waist belt buckles open and close. To make sure your youngster is safe, practise it with them.
2. Place the waist belt firmly around your child's waist.
3. Put the belt on and tighten it to fit comfortably. Make a clear "click" sound to indicate that the closure is secure.
4. Put the doll or toy behind or in front of your child in the integrated inside pocket.
5. Make sure the shoulder straps are properly positioned when you assist your youngster in putting them on.
6. To keep the shoulder straps firmly in place, fasten the chest/back strap.
7. Squeeze the buckle's male portion to release the toy carrier and separate the waist strap from the chest/back strap. Put the toy carrier away.
